Could Hardly Sleep at Night for About 11 Months. Used Cuti-cura Soap and Ointment and was Completely Cured.

"My mother had a red spot on her right hand which began to grow worse rapidly. The neighbors said it was a tetter. She got some medicine from a doctor, but it did not do any good. In abous a week the tetter began to grow here arm too. She used fiye or six different and three different and three different and three different and three different winds of salves. Not one of these did her a rould burn and itch so much that she could hardly sleep at night. Her hand was that way for about eleven months. Finally a friend of ours recommended Cuticura Soap and Ontment to us. She bought some immediately and began to use it. She washed her hand and arm with Cuticura Soap and warm water. Then she applied the Cuticura Ointment and bandaged her hand up. The next morning we all noticed a great improvement. Before she had used a half of a box of Ointment and a very little Soap her hand was completely cured. Now her hand is as well as ever.
